Professional Summary

Passionate and detail-oriented .NET Web Developer with hands-on experience in designing, developing, and maintaining modern web applications using ASP.NET Web Forms, C#, SQL Server, HTML5, CSS3, JavaScript, and Bootstrap. Currently working at Teleperformance India, contributing to secure, scalable, and user-friendly web solutions while improving application performance and user experience. Skilled in both frontend and backend development with a strong understanding of responsive design, database management, debugging, and deployment workflows. Experienced in building real-world projects including task management systems, quiz platforms, portfolio websites, and automation-based web applications. Adept at using AI-powered prompting and modern development tools to improve productivity, optimize code quality, and accelerate development processes. A quick learner with excellent communication, analytical thinking, and problem-solving abilities, seeking opportunities to grow as a Full Stack .NET Developer and contribute to innovative technology-driven organizations.

Technical Skills

Programming & Web Technologies

- C#
- ASP.NET
- HTML5

- Visual Studio
- Git & GitHub
- Firebase Hosting
- Google Analytics
- SQL Server Management Studio

Additional Skills

- Responsive Web Design
 - Database Design & Management
 - API Integration
 - Website Deployment & Hosting
 - Debugging & Performance Optimization
 - UI/UX Improvement
 - AI Prompting for Development Productivity
-

Education

Bachelor of Engineering (B.E.)

NIMS University, Jaipur

Professional Experience

Web Developer – Teleperformance India

(Oct 2023 – Present)

Roles & Responsibilities:

- Develop and maintain ASP.NET-based web applications for internal and business-related processes.
 - Build responsive and user-friendly interfaces using HTML, CSS, Bootstrap, and JavaScript.
 - Manage SQL Server databases including query optimization and data handling.
 - Debug and resolve frontend and backend application issues to ensure smooth performance.
 - Collaborate with team members to improve workflows, functionality, and user experience.
 - Implement clean coding practices and optimize application performance.
 - Utilize AI-assisted development tools and prompting techniques to enhance coding efficiency and productivity.
-

Projects

TeamSync – Task Management System

- Designed and developed a collaborative task management platform using ASP.NET, C#, and SQL Server.
- Implemented task assignment, tracking, and responsive dashboard functionalities.
- Integrated clean UI design and efficient database handling for improved usability.
- Used GitHub for version control and project management.

ASP.NET Quiz Management System

- Developed a complete quiz management platform with separate admin and user modules.
- Added support for MCQ and True/False question formats.
- Implemented score tracking, answer validation, and one-time attempt restriction.
- Designed a modern and responsive user interface inspired by Microsoft Forms.

Personal Portfolio Website

- Created a modern personal portfolio website showcasing skills, projects, and experience.
 - Deployed the website using Firebase Hosting with responsive mobile-friendly design.
 - Added SEO optimization, downloadable resume functionality, and smooth navigation.
 - Integrated Google Analytics for visitor tracking and performance monitoring.
-

Strengths

- Strong Problem-Solving Skills
 - Quick Learner and Adaptable
 - Team Collaboration and Communication
 - Attention to Detail
 - Ability to Work Under Pressure
 - Passion for Learning New Technologies
-

Career Interests

- Full Stack .NET Development
 - Web Application Development
